(54) PORTABLE TELEPHONE TERMINAL DEVICE, CONTENTS REPRODUCTION INTERRUPTING AND RESTARTING METHOD OF PORTABLE TELEPHONE TERMINAL DEVICE, AND CONTENTS DISTRIBUTING STATION

(57)Abstract:

PROBLEM TO BE SOLVED: To facilitate a series of user operations for interrupting the reproduction of a moving image and a sound, music, etc., by interruption of mail, incoming, etc., and restarting the reception after the interruption, when the moving picture and sound, music, etc., are received by a portable telephone.

SOLUTION: The portable telephone terminal device 104, capable of reproducing contents 102 of a moving image and a sound, music, etc., distributed from a distributing station 101 via a portable terminal base station 103 in receiving them or after storing them, is provided with a reproduction interruption information detecting means, which detects reproduction interruption information during the contents reproduction, a transmission interruption requesting means which sends a transmission interruption request; a reproduction restart information detecting means which detects reproduction restart information during the interruption of the contents reproduction; and a transmission restart requesting means which sends a transmission restart request; and the start of interruption, reproduction interruption, the end of the interruption, and the restart of the reproduction are each performed with a single user operation.
